

Planet United

Arnhem, February 14th, 2006

Dear reader,

I am writing this on the day of love between individuals, Valentine's Day. This is a day on which great friendships will be created that last for a long time. It is of extreme importance that we extend this love between individuals towards cultures and countries. This is the only thing for us left to do. You are receiving this message because I trust that you are absolutely willing to help me organize this major event.

What is the plan?

There is only one factor that can actually unite the world and that factor is music. We saw this at the opening of the wintergames in Torino (Imagine) and during Live Aid '05. We need to create concerts in the world at the places where we have lost people for no reason. The concerts have to take place on the day out of time, this year 2006; being 25th of July. I know that we need a lot of volunteers and artists that will work on that day for free to reach our goal: A united and peaceful planet. You would say: we try this for years, but it doesn't help us. The reason might be that we use anger to destroy anger. We make wars, not love. This is an attempt to stop all enemy-behaviour in this world. We would ask Al-Quaida to stop their battle, but we also ask the US & UN to resign from Afganistan and Iraq. We ask for Cyprus to be reunited. Let all soldiers go home.

What do we need?

In every country we need a co-ordinating point who is responsible for the places on which the concerts will take place – and a point which co-ordinates the artists who will perform. E.g. in the Netherlands we need to have concerts on the place where Theo van Gogh passed away, places where afterwards were put things on fire, and at the bridge of Arnhem we need a concert as well. There are absolutely more places needed to create the possibility for everyone to attend a concert if they like. Everyone will go to their jobs and schools on that day but everyone gets a day off on this beautiful day. Further on in the world, we need concerts on Ground Zero, Bagdad, Basra, Kabul, Israel and the palestenian places, Iran, Libanon, Cyprus, Rwanda, Hotels in Egypt, China's place of the heavenly peace in Beijing, The school in Beslan, Tsjetsjenia, Georgia, Indonesia, Kenia, South Africa, Heroshima, Nagasaki, Vietnam,

beaches of Thailand, Sri Lanka, India, Maldives, Cuba, Mexico, Colombia, Chile, Argentina, Houston, New Orleans, Berlin, Belgrado, Zagreb, Macedonia, Turkey. Please don't accuse me of not having mentioned your local place where incidents took place but remember your local hard place is a reason for a Planet United concert as well.

The idea is to transmit these local concerts into all media of that country. Only one internet website will be accessible during this day: www.PlanetUnited.org

What can I do?

What I need is also local music as well to be carried out on this beautiful day. On local places we need the music of the people that live there as well. So in the Netherlands we need for example Turkish music, but a lot more as well. I am aware that I am absolutely not used to this kind of music so other people have to select that out and forward this to the main co-ordinating point.

What we need to do is listen to each others music on that day and remember that from wherever we are, we remain brothers and sisters. And you can't look through a barrel of a gun to kill a brother or sister...

If you can be at any help organizing this major event of the year 2006, please let me know. There will be a list of companies and organizations that have already told us to help organize this on my website.

What we would like to do is pay this from the TV-rights and advertising. So for the people around the world this event has to be free of charge. The fact that you think you have to go to work that day should not be a reason for not being a volunteer on this day to make help organize this concerts of harmonization.

Don't think this can't be done, because it can be! When I see the Olympic Games being organised and presented by thousands of volunteers, this can be done as well...

Who is the main co-ordinating point?

Tjarko Holtjer / Harmonic Health
Oremusplein 12
6815 DP ARNHEM
The Netherlands
<http://www.hhff.info>

If you forward this message to somebody else from who you think can help as well, don't forget to CC to my emailaddress: Tjarko@hhff.info

Kind regards,
Tjarko Holtjer
